

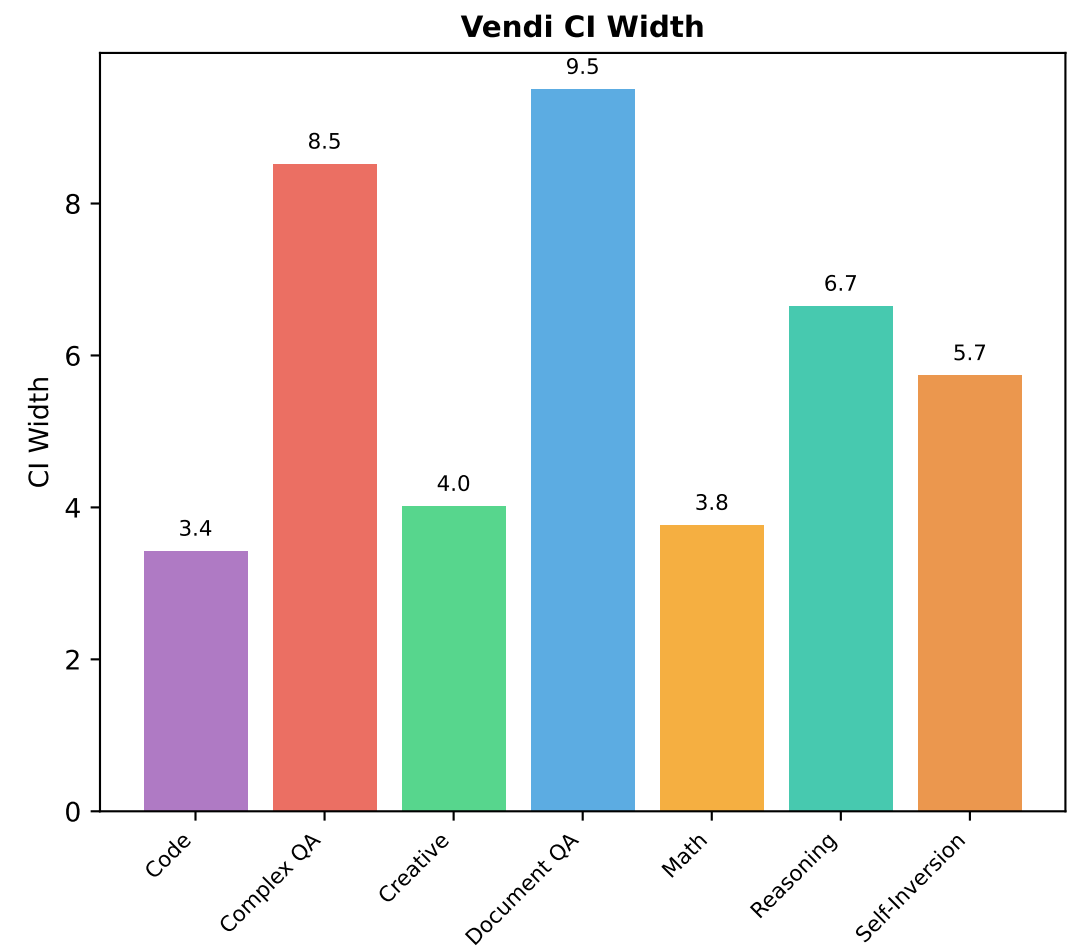

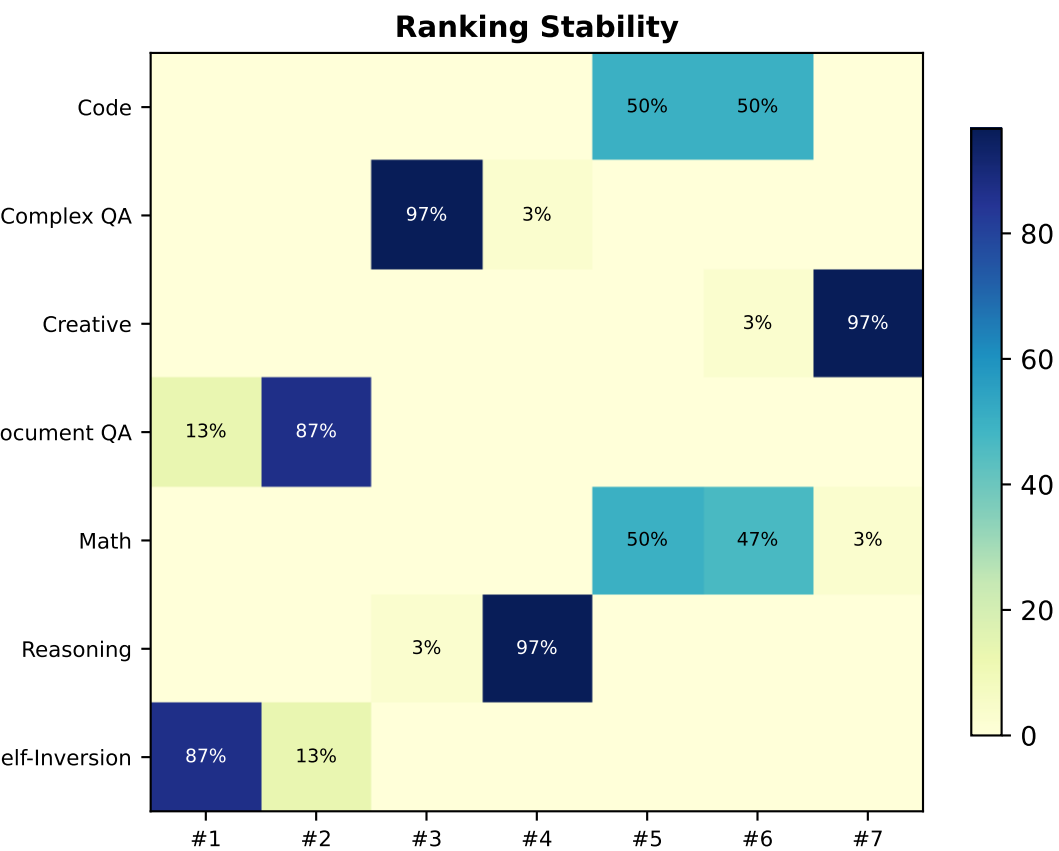

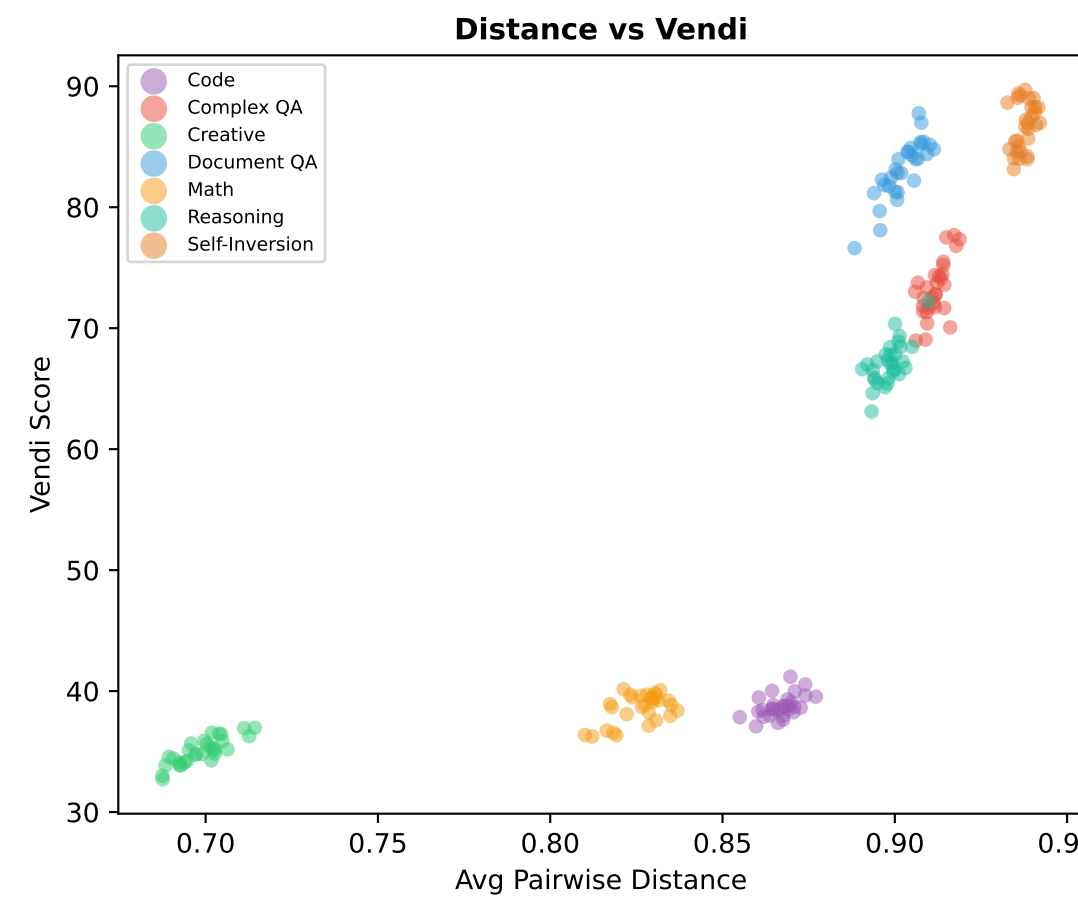

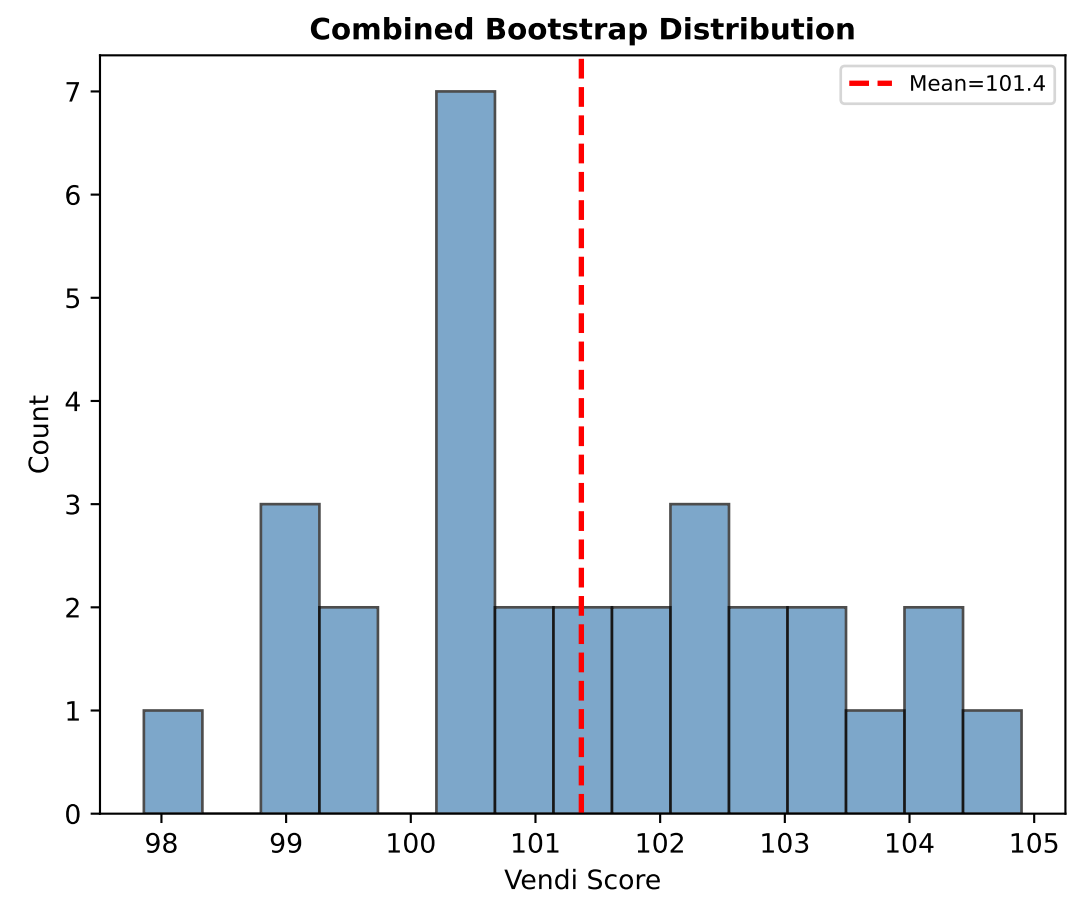

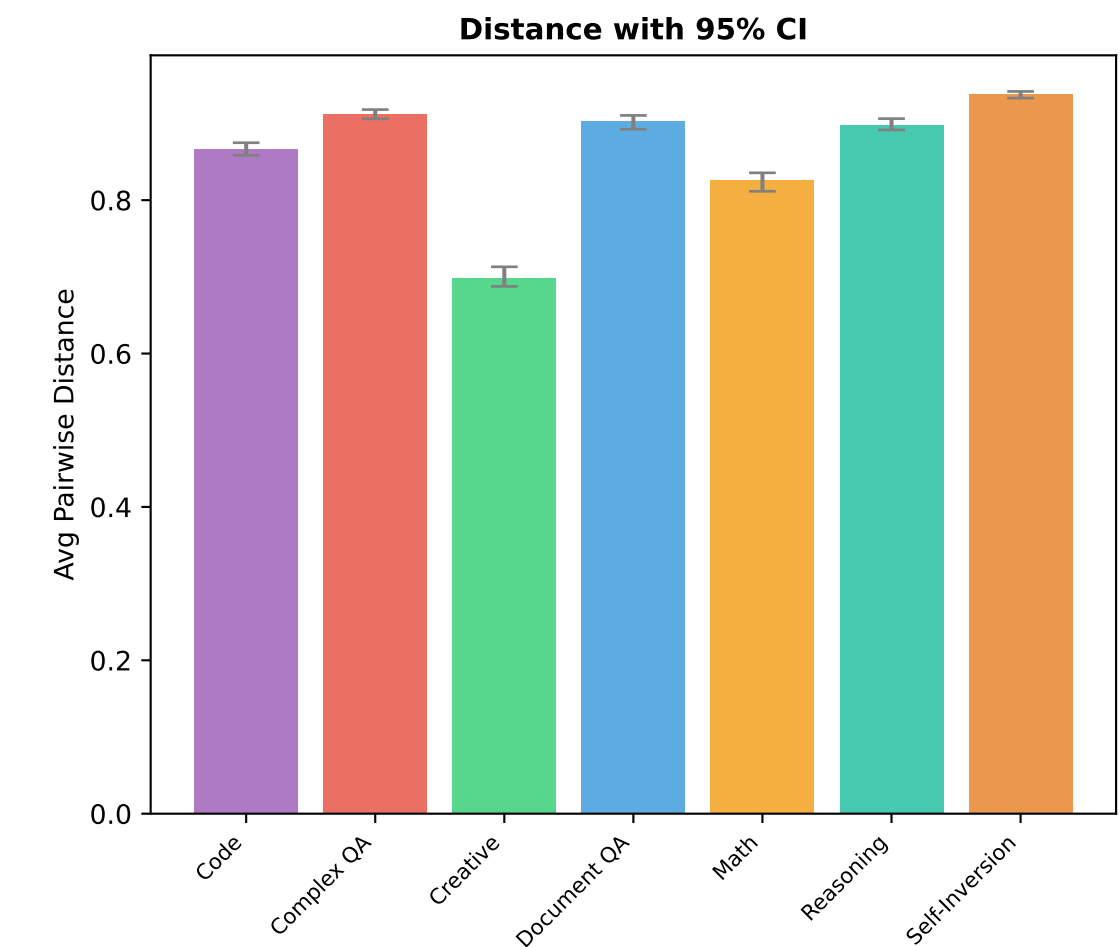

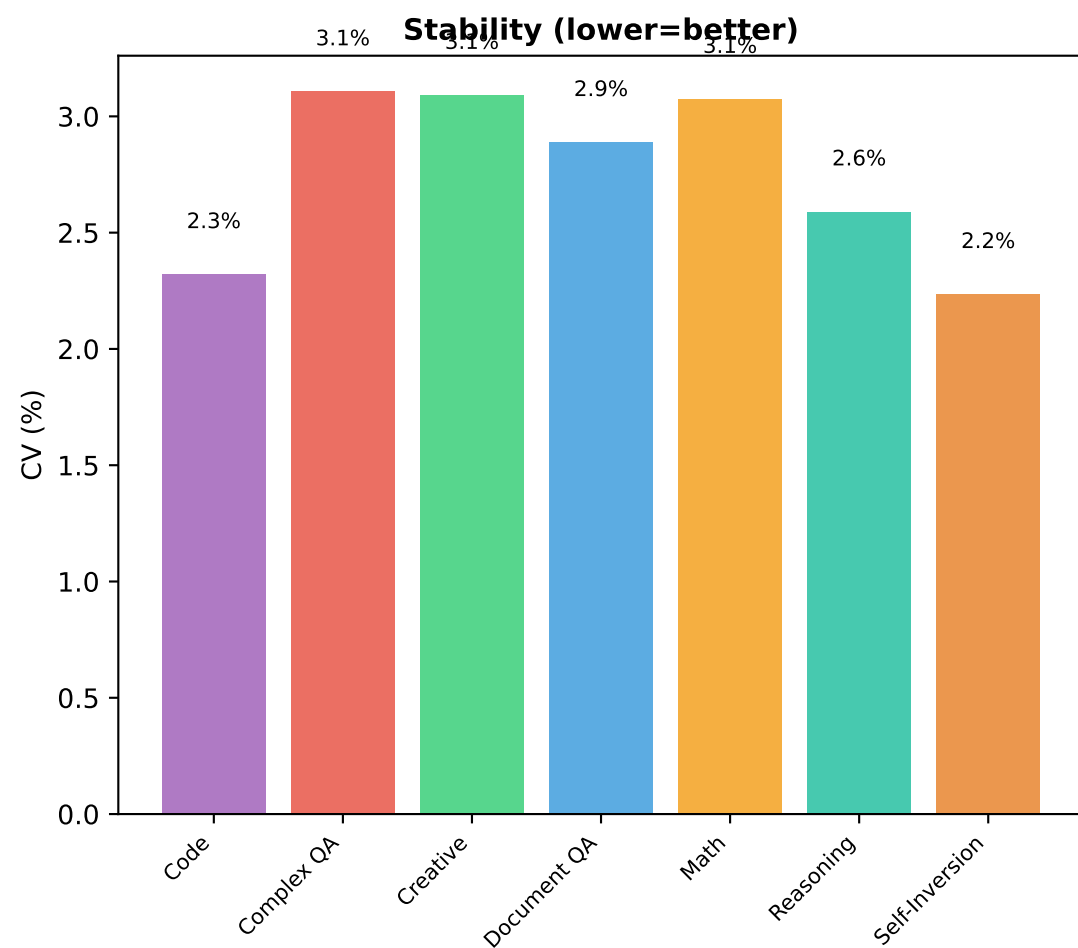

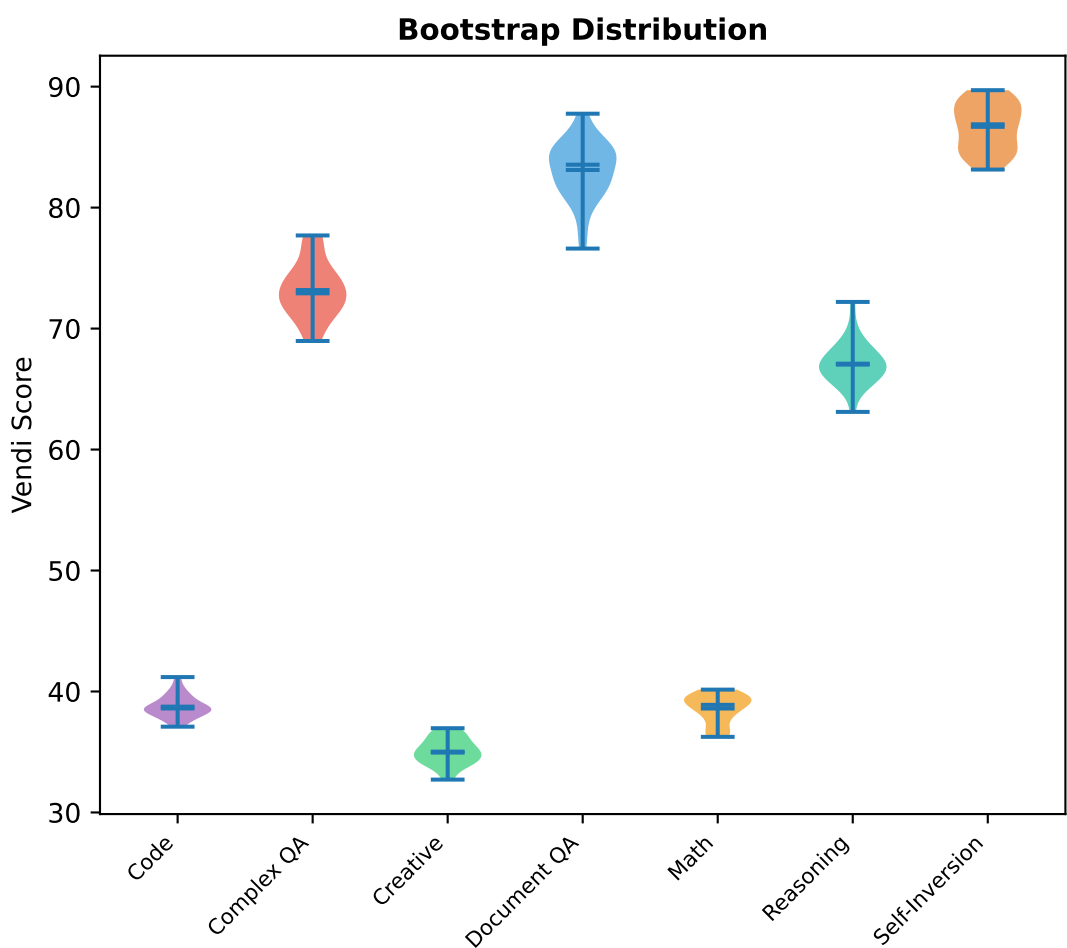

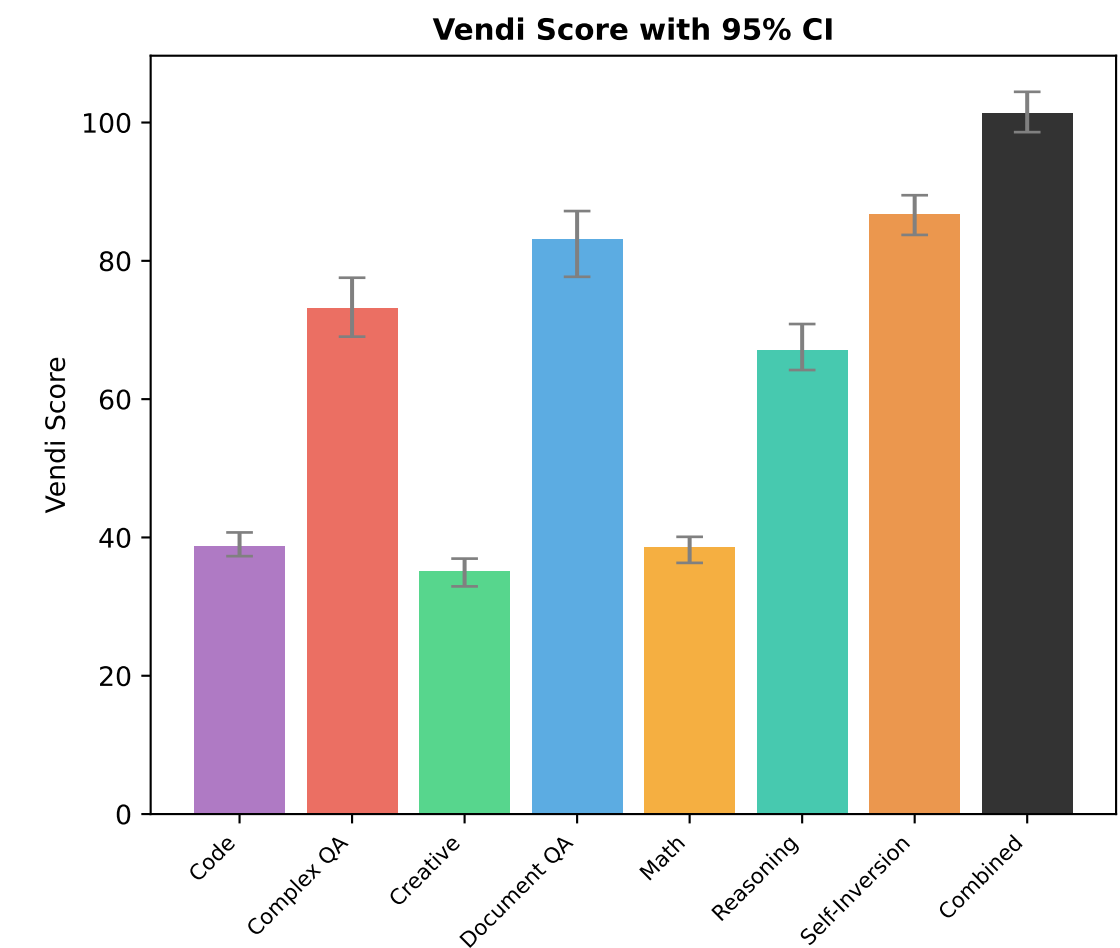

Fig 187: Bootstrap Stability of Diversity Metrics

Bootstrap Summary (n=30)

Combined: 101.4 [98.6, 104.4]

Most stable: Self-Inversion (CV=2.2%)
Least stable: Complex QA (CV=3.1%)

Rankings very consistent:
Self-Inv always #1 or #2
DocQA always #1 or #2
Creative always last

Key: diversity estimates are robust
and reproducible across resamples.
