

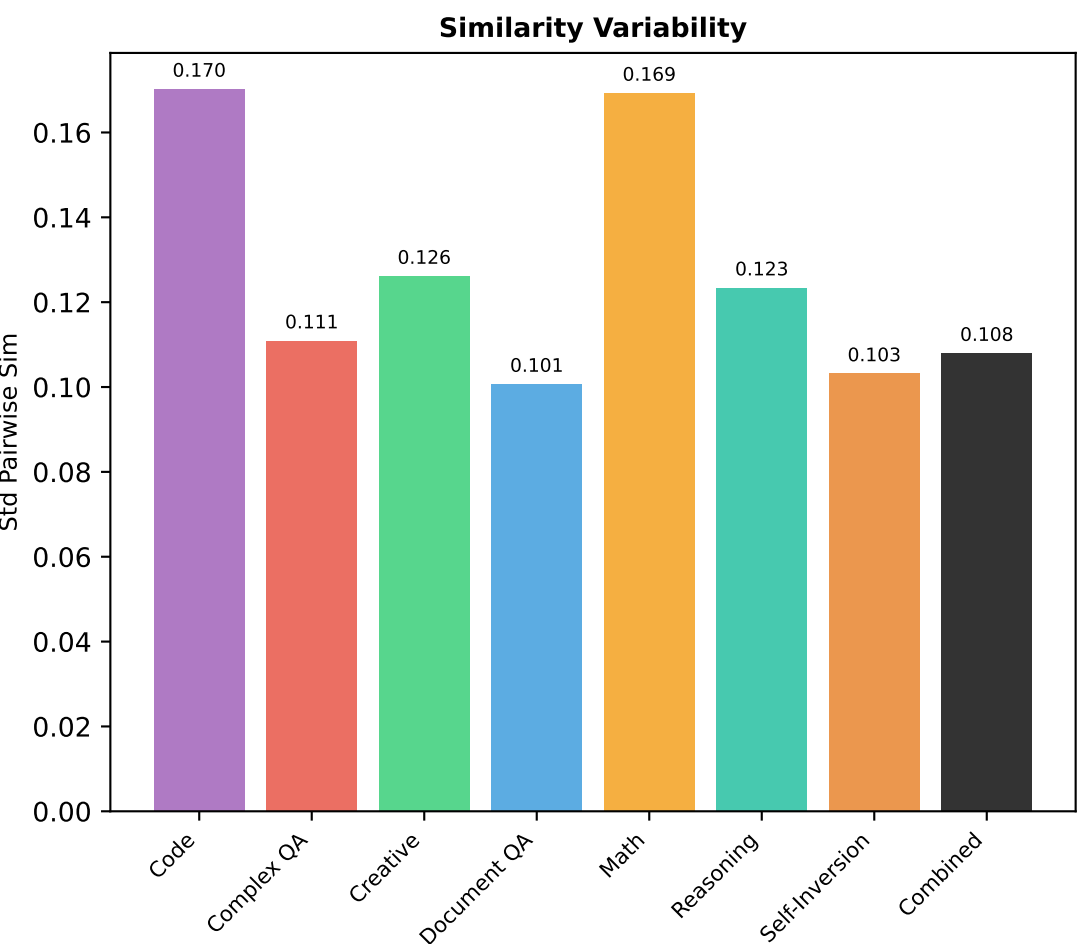

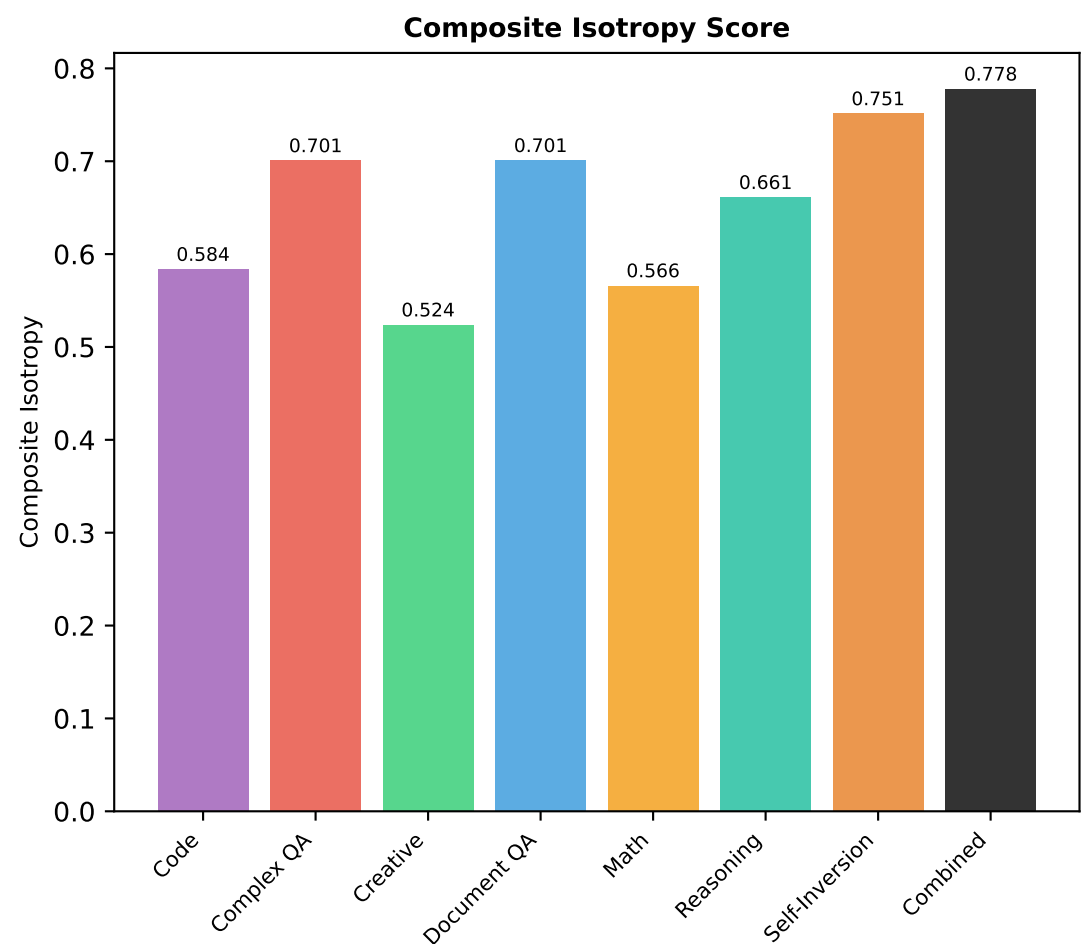

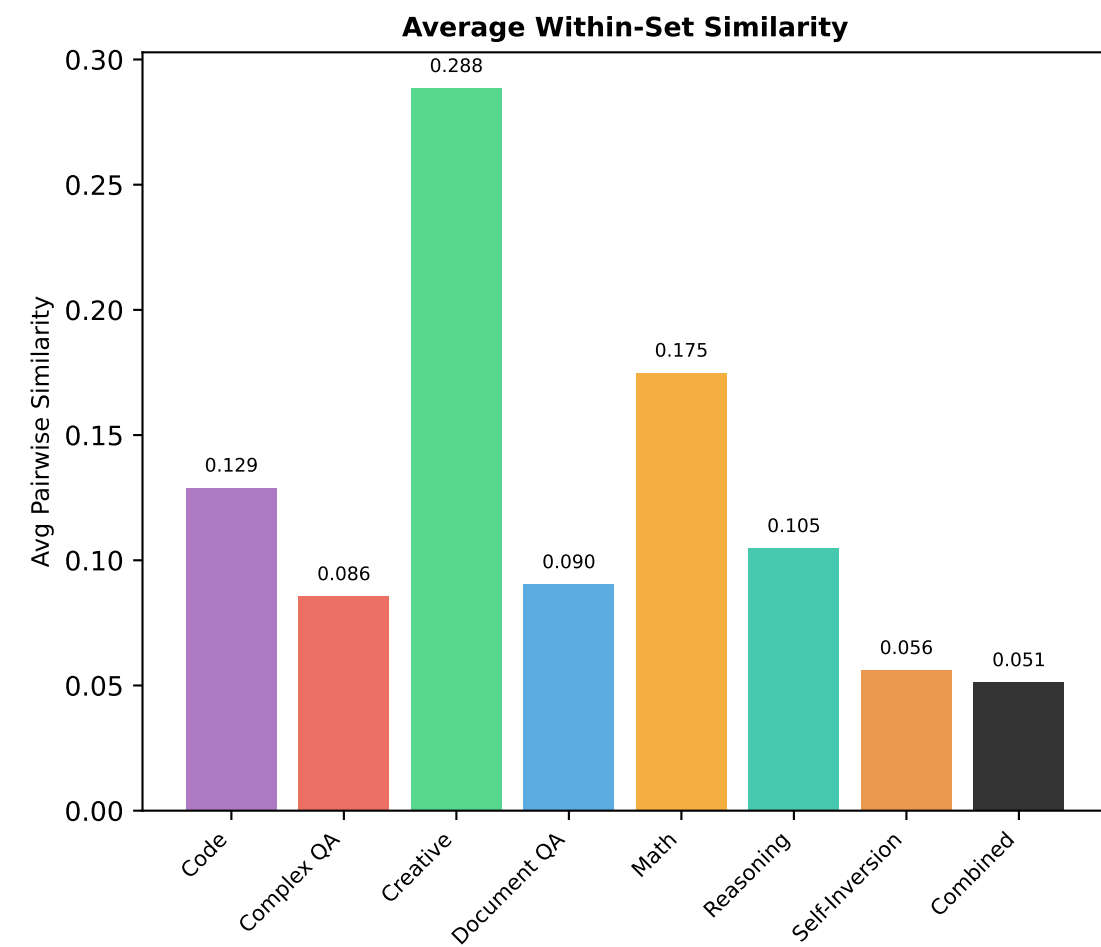

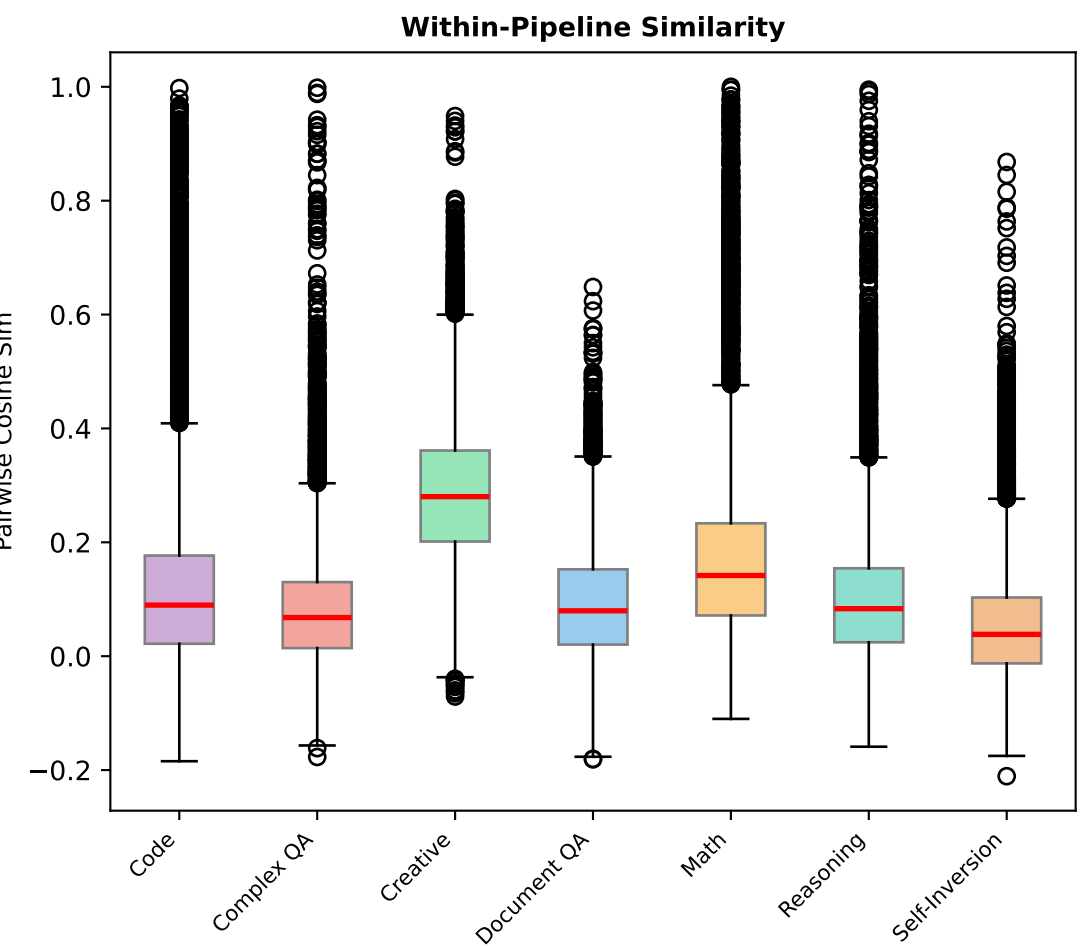

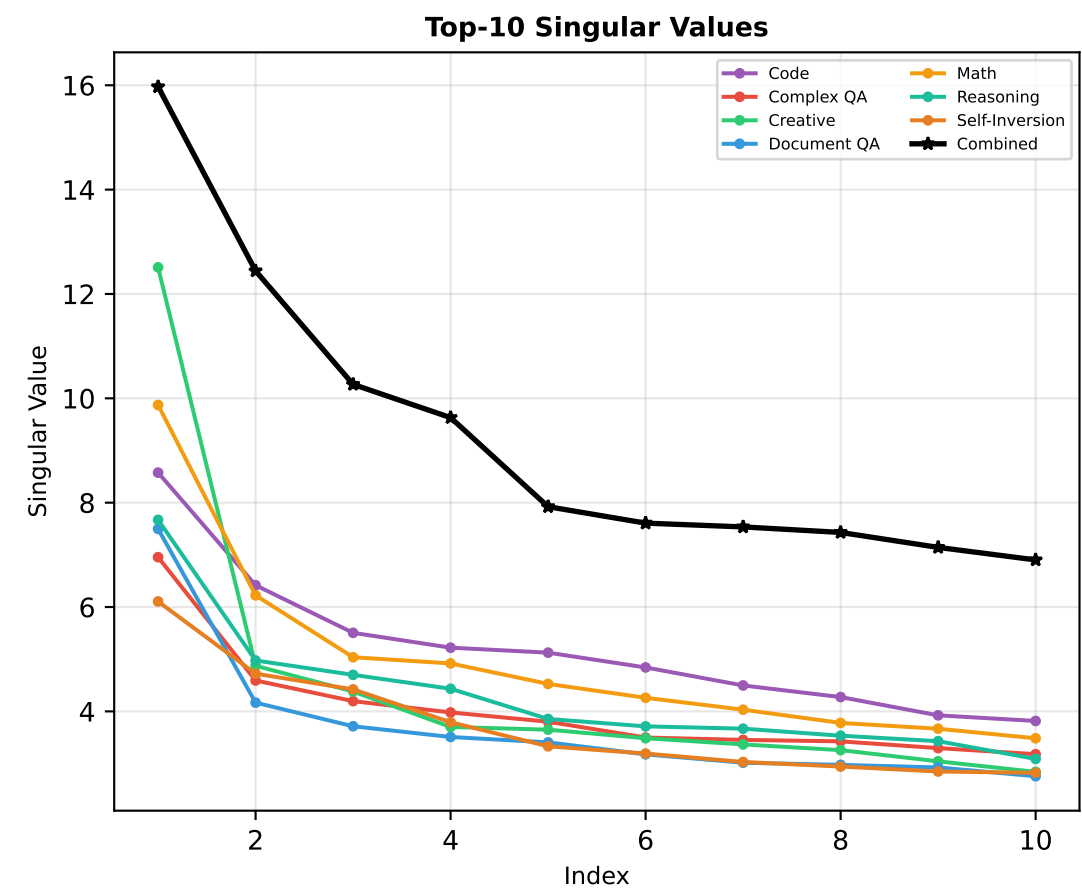

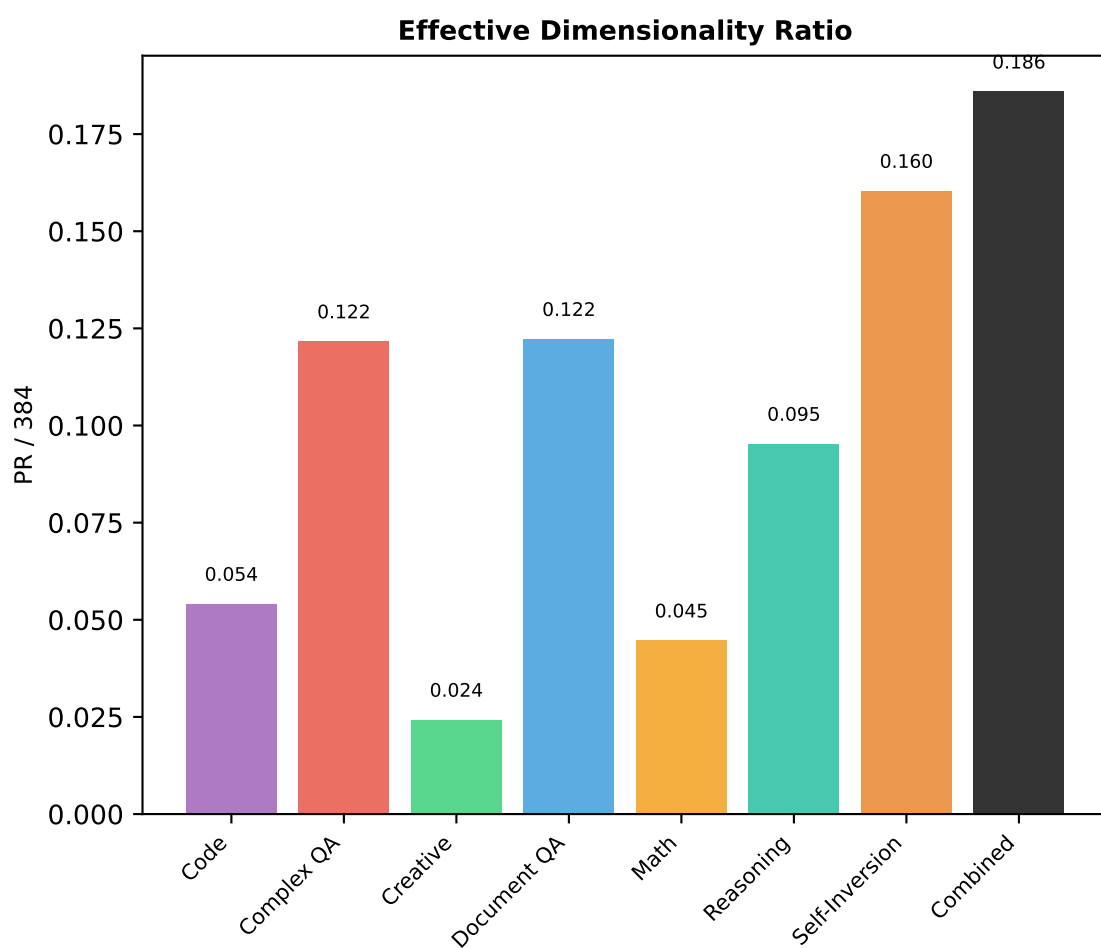

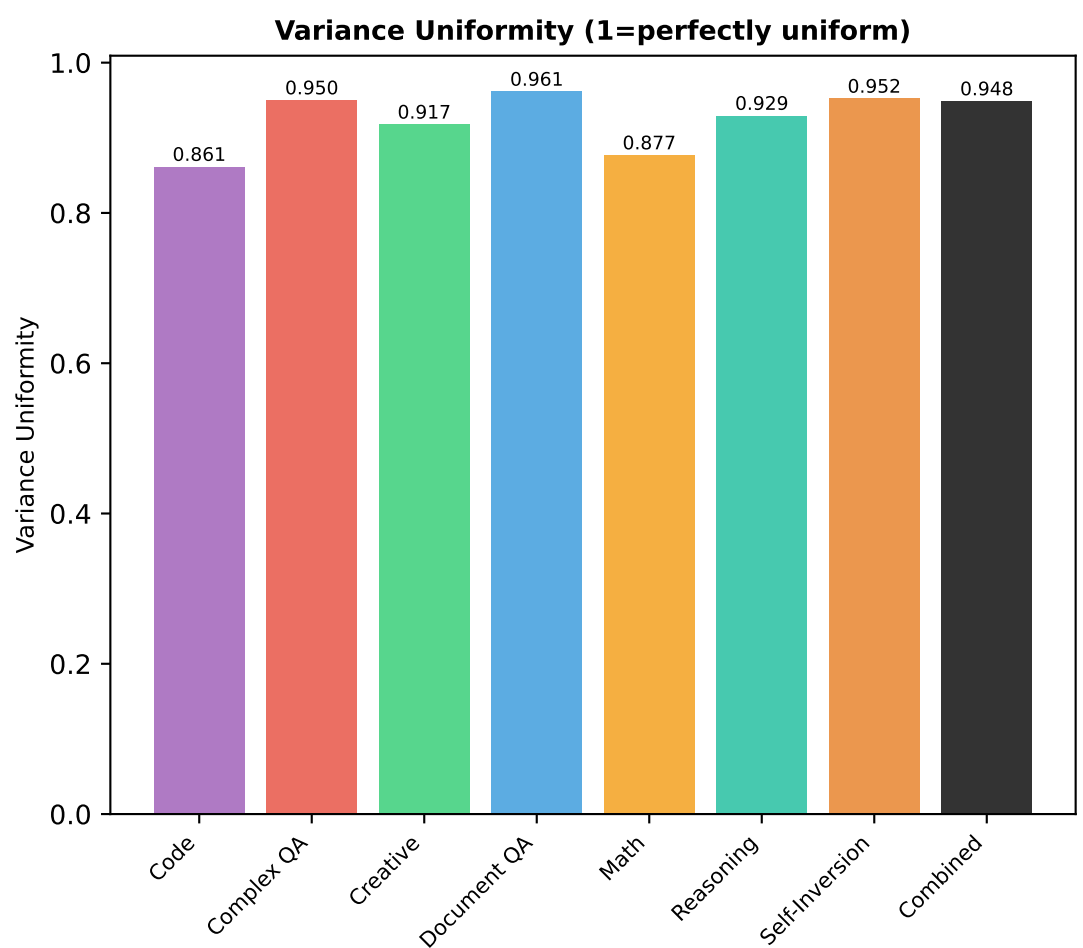

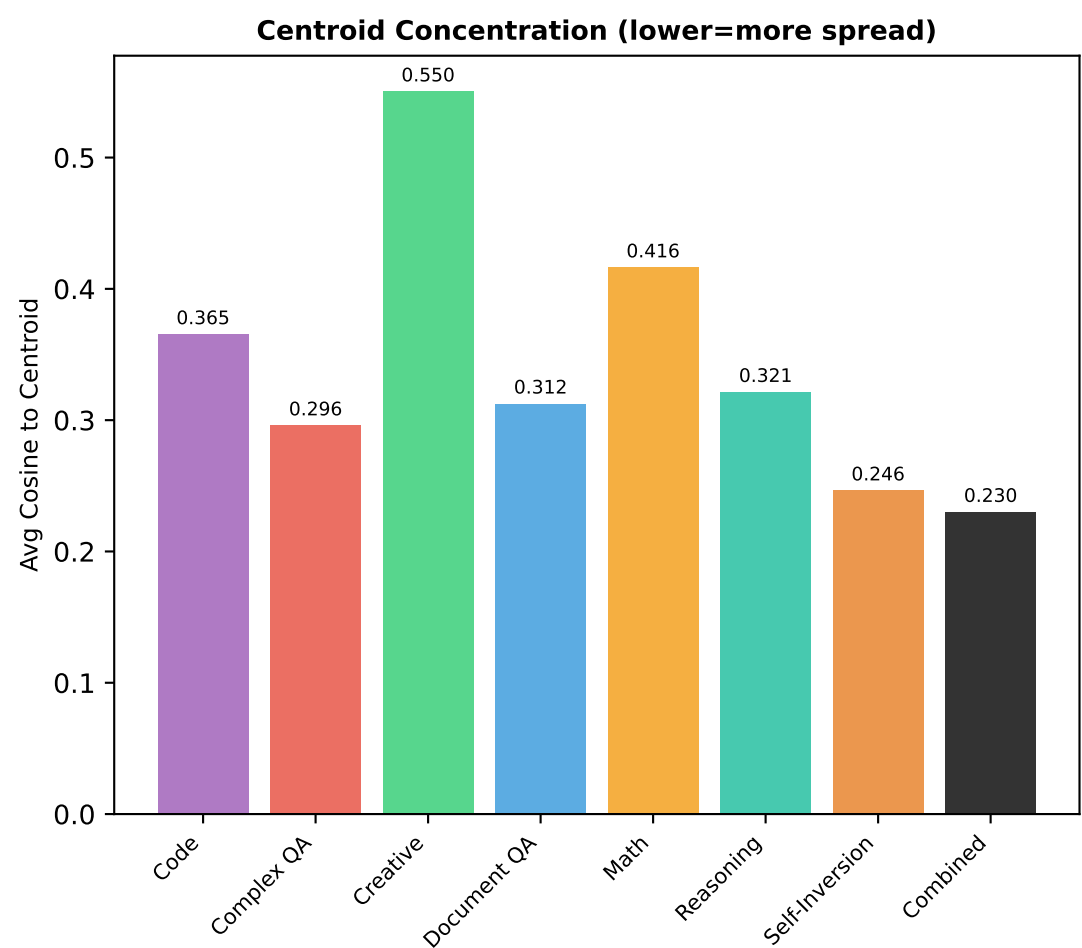

Fig 177: Embedding Space Isotropy Analysis

Isotropy Analysis Summary

Most isotropic: Document QA
(uniformity=0.961)
Least isotropic: Code
(uniformity=0.861)

Combined dataset:
Uniformity: 0.948
Eff dim ratio: 0.186
Avg pairwise sim: 0.051

Key Insights:

1. Combined > most single pipelines
2. Self-Inv & DocQA most isotropic
3. Code most anisotropic (clustered)
4. Mixing pipelines improves isotropy
